COMPLETE MOBILITY SOLUTIONS

MOBILITY

ACCESSIBILITY

SERVICE

Whether the mobility needs are simple, complex, or somewhere in-between, National Seating & Mobility (NSM) is focused on providing our clients with 360-degree Complete Mobility Solutions. The solution may be customizing a power wheelchair, helping ensure independence and safety in the home, or servicing equipment to keep our clients moving. No matter the mobility solution, at NSM, our goal always is to help our clients move through life.

**Some rental agreements and payer contracts may prohibit NSM from servicing a chair.*

At National Seating & Mobility (NSM), we believe in mobility for life. That's why we offer accessibility products designed to keep you independent at home and beyond. Our certified professionals work with industry-leading accessibility suppliers to choose the best products for each customer's needs. From evaluation, to installation and routine maintenance, at NSM, we help our clients move through life.

IN-HOME LIFTS

In-home lifts allow you to more easily accomplish day-to-day tasks like transferring from bed to a mobility device especially where space is limited, so you can move around your home more freely without worrying about risking injury. From freestanding to mounted lifts, portable units to slings, NSM lifts can help you live independently every day.

STAIR LIFTS

It's your home; you should be able to easily access and enjoy every room in it, including the upper level. NSM stair lifts can be fitted to any existing staircase so you can move up and down your stairs with ease. Each of our indoor and outdoor stair lifts are compact, ergonomically designed and made to last.

VEHICLE LIFTS

We believe mobility challenges shouldn't keep anyone from enjoying the world beyond their front doors. Vehicle lifts allow mobility device users to fully experience life the way they want by empowering them to go wherever the road may be calling them. No matter the vehicle, NSM offers powerful lifts ranging from economical to high-tech options to suit each person's needs.

PLATFORM LIFTS

Wheelchair users don't have to sacrifice fully enjoying their home, even if a stair lift isn't ideal for their needs. Platform lifts allow users to simply access upper levels of their homes without having to transfer from their wheelchairs, providing a safe, economical and space-effective solution to a wide variety of access challenges.

RAMPS

Even the smallest ramp can make a huge difference when it comes to accessing every room in your home — or while on the go. Whether you're looking for a full-size ramp for front door access or a small entry ramp for a threshold, we've got plenty of options to help you live freely. Rentals are also available.

BATH SAFETY SOLUTIONS

We know day-to-day tasks like bathing can become cumbersome with mobility challenges, but we believe it shouldn't have to be. Create your own private bathing oasis with toilets, lifts, shower chairs and grab bars.

DOOR OPENERS

Our professional-grade door openers are designed to unlatch a door, then open, pause and close it - all automatically. They can be operated with wheelchair-mounted remote controls, wall push pads and other specialty controls, making it easier than ever for you to live freely, wherever you may be.

LIFT CHAIRS

Enjoy the comfort of your recliner without worrying about your safety getting in and out of the chair. NSM offers a variety of quality, stylish lift chair recliners with wired or wireless controls that allow you to relax in confidence.

MOBILITY SCOOTERS

NSM's state-of-the-art mobility scooters allow you to experience life fully, no matter where it takes you. Whether it's a lightweight, high-tech model or an extra-durable, rugged ride, these scooters will get you where you need to go in style.

WHILL POWER WHEELCHAIR

The latest model of this low-profile, intelligent personal electronic vehicle brings a new level of freedom to wheelchair users of all ages, giving them access to more areas than ever before. The **WHILL**'s omni wheel allows it to turn on a dime, even outdoors, and its adjustable arms glide out of the way for easy transfers. Its modern, sleek design eliminates unnecessary bulk, and its corresponding iPhone app adds another layer of convenience and function for any user.
